

Insurance & Financial Policy

We are concerned about your child's dental health and look forward to helping your child with his/her dental care.

Please remember that your dental insurance is your responsibility, but we can help. Regardless of what we might calculate as your dental benefit in dollars, we must stress the fact that you are responsible for the total treatment fee. As a courtesy to you, we can accept assignment of benefit payment from most insurance companies. This will reduce your immediate out- of- pocket expenditures. The estimate that we give to you is based on limited information obtained from your insurance and is not a guarantee of payment. We allow 30 days for your insurance company to make a payment. After this time any balance, and all inquiries (follow- up) on payments due, become your responsibility. If for some reason the account becomes delinquent, you agree to pay the collection costs and attorney fees.

Payment is due the day services are rendered.

Financial arrangements for your child treatment include the following:

- Cash or Check at the time of service
- Visa, Master Card, American Express or Discover
- Health Financing Program (Care Credit)
